

VIA Tool Instruction

Tutorial

- [Official Website](#)
- Get Started : A basic user guide is also available inside the VIA application and can be accessed using top menubar "Help -> Getting Started".
- [Video Instruction](#) (In video, it used version 2.02. Its keyboard shortcuts are little different with version 2.11(now using))

Steps of annotation on building type

1. Download [the github](#) repo , there are two dataset folder. 'train' and 'val' need to be annotated
2. Open the vai/via.html
3. Click Project => Load => Select train.json/ val.json

Steps

3. Click add file, select all the image in the train folder, and your screen will be like:

Attributes

Steps

4. For each images, Click ***spacebar*** and you can choose the building type.

There are 4 classes,
opening, masonry, m6, rcw.
Default is masonry.

Usually, label number of
buildings is in the beginning,

Here it is 1, 2, 3

Keyboard shortcut

Here

Esc, spacebar are
used frequently

Keyboard Shortcuts

Available only on image focus

← ↑ → ↓	Move selected region by 1 px (Shift to jump)
a	Select all regions
c	Copy selected regions
v	Paste selected regions
d	Delete selected regions
Ctrl + Wheel	Zoom in/out (mouse cursor is over image)
l	Toggle region label
b	Toggle region boundary
Enter	Finish drawing polyshape
Backspace	Delete last polyshape vertex

Always Available

← →	Move to next/previous image
+ - =	Zoom in/out/reset
↑	Update region label
↓	Update region colour
Spacebar	Toggle annotation editor (Ctrl to toggle on image editor)
Home / h	Jump to first image
End / e	Jump to last image
PgUp / u	Jump several images
PgDown / d	Jump several images
Esc	Cancel ongoing task

Note

- If you find some mislabel building, please record its file name
- If you encounter any problem, please contact me(yaxiong.luo@epfl.ch).

Thanks
