

VIA Tool Instruction

Tutorial

- [Official Website](#)
- Get Started : A basic user guide is also available inside the VIA application and can be accessed using top menubar "Help -> Getting Started".
- [Video Instruction](#) (In video, it used version 2.02. Its keyboard shortcuts are little different with version 2.11(now using))

Steps of annotation on building type

1. Download [the github](#) repo , there are two dataset folder. 'train' and 'val' need to be annotated
2. Open the via/via.html
3. Click Project => Load => Select train.json/ val.json

3. Click add file, select all the image in the folder 'train', and your screen will be like this

3. Click add file, select all the image in the folder 'train', and your screen will be like this

Steps

4. For each image, click ***spacebar*** and you can choose the building type.

There are 4 classes, opening, masonry, m6, rcw. Default class for building is masonry.

Usually, label numbers of building are at the beginning

Here numbers are 1, 2, 3, 4

Keyboard shortcut

Here

Esc, spacebar are
used frequently

Keyboard Shortcuts

Available only on image focus

← ↑ → ↓	Move selected region by 1 px (Shift to jump)
a	Select all regions
c	Copy selected regions
v	Paste selected regions
d	Delete selected regions
Ctrl + Wheel	Zoom in/out (mouse cursor is over image)
l	Toggle region label
b	Toggle region boundary
Enter	Finish drawing polyshape
Backspace	Delete last polyshape vertex

Always Available

← →	Move to next/previous image
+ - =	Zoom in/out/reset
↑	Update region label
↓	Update region colour
Spacebar	Toggle annotation editor (Ctrl to toggle on image editor)
Home / h	Jump to first image
End / e	Jump to last image
PgUp / u	Jump several images
PgDown / d	Jump several images
Esc	Cancel ongoing task

Note

- If you find some mislabel building, please record their file name and tell me
- If you encounter any problem, please contact me(yaxiong.luo@epfl.ch ,
skype: luoyaxiong159@gmail.com). Thanks
